

July 17 1944

Dear Gottlieb:

I had a thought, if the man in Camden could get a picture of my catcher some way it might help the Camden game. The boy is from Camden, and I think played on their local team until he left with us this year. I do not have a picture of him, but I thought he might be able to get one made in Philly Saturday, when we play you. If he does I will pay him for it if it is any good. The catchers name is Willie Wynn

I am sorry I did not speak of the events at Yankees Stadium before. I really think they would be an attraction. It is only possible to have them when four teams are playing. They are not much trouble to run. They should start at 1.30, before the games, so none of the men will be tired from playing a game. I guess it is too late now to get the proper publicity.

I talked to Posey, and we are going to play that game in Newark Friday Aug. 18th.

Very Truly Yours
